

Description

Typical Maltese traditional Townhouse in the very heart of Ghaxaq village, literally close to all amenities at a few steps away and being located in a UCA area. This Corner Townhouse, comprises a spacious hallway upon entrance, leading to a library/study room which can be easily converted into a bedroom - with the room being spacious enough, a bathroom, a living room, dining area leading to a separate kitchen, where one could potentially combine them both at once to enjoy an open plan, a guest toilet room, and an internal yard. Up to the first floor, another spacious hallway welcomes you which leads to a front Maltese solid wood typical balcony. It also consists of 2 bedrooms and a second bathroom, together with a large terrace. This lovely townhouse enjoys high ceilings with beams, has Traditional Maltese floor tiles includes its own full roof with own airspace and is being sold freehold.
